“We hired Cathy after being very impressed with a friend’s recent renovation. My wife and I wanted to renovate our master bathroom and living room for over 2 years but have not been able to come up with a decent plan. We hired Cathy to come up with design/floor plan options and we have been very impressed with her vision and creativity. We could not have done it without her. We will definitely use her with any future projects.”

Gray McWhirter

“We purchased our 1950’s brick ranch home last year largely due to the creative design work that Cathy Best at Design Resources had done. The updated renovations to our home were simple, elegant and fresh. Choosing Cathy was an easy decision when we decided to add an addition to our home. She is a delight to work with, listening to our ideas and creatively making them a reality.”

Alan and Karen Murray

“Cathy was so easy to work with and had lots of fresh new ideas for our space! She was able to come in and completely redesign my grandmother’s 1970’s ranch home to fit modern conveniences and styles! I have recommended Cathy to many of my friends to help with their home projects because her input was so crucial to our renovation! “

Rachel Kinsaul

“I loved working with Cathy. After walking through my dated, awkward home, she was able to sit down and create a beautiful, sensical floor plan that completely changed the way I saw the space. We haven't moved forward with the renovation process yet, but when we do I would absolutely be confident using Cathy to help with additional design details and selections. She has a great eye and would be a huge asset to anyone looking to build or renovate their home.”
